

Elevate everyday living

Materials, accessories, and user interface devices for MonoSpace Home DX

Seven reasons to choose KONE MonoSpace Home DX

1

Greater safety & reliability

- KONE EcoDisc® Motor: Built for safety, the fourth-generation motor is more reliable and durable, with a compact design that saves space. Its innovative placement also makes maintenance and repair easier, enhancing long-term dependability.
- Emergency Power Backup: Keeps the lift operational during outages, ensuring peace of mind.
- KONE Remote Monitoring: Offers 24/7 monitoring to enhance safety and security in your home.
- Curtain of Light: A safety feature that senses if someone or something is in the way of the doors, preventing accidental injury.

2

Excellent eco-efficiency

- Energy-Efficient Drive System: The KONE MonoSpace Home lift delivers impressive energy savings, with a motor twice as efficient as traditional motors and a 10% reduction in energy loss, contributing to lower energy bills and a smaller carbon footprint.

3

Superb ride comfort

- Smooth Ride Experience: The advanced control system provides a quiet, smooth ride, offering a premium feel that integrates seamlessly with the comfort of your home.

4

Optimised for home installation

- Custom Fit for Homes: Designed with dimensions optimised for different home heights, ensuring a perfect fit and aesthetic alignment with your space.
- Accessibility Features
- Delayed Door Opening: Gives extra time for entry and exit, assisting those with limited mobility.
- Double-Tap Cancellation: Allows you to cancel incorrect floor selections with a simple double tap.
- Accurate Levelling: Ensures precise levelling, reducing the risk of trips and falls.

5

Standards compliant

- Meeting Key Standards: The KONE MonoSpace Home elevator meets AS 1735.18-2002 standards.

6

Design options

- Car Design Themes: Choose from six functional and stylish designs to suit your home's aesthetic.
- Customisable Interior: Mix and match materials and finishes to create a look that complements your interior design.

7

Reliable care for years to come

- Preventive maintenance: With KONE 24/7 Connected Services, you'll be notified when your elevator equipment needs examining - providing you full transparency and improved safety.

Redefine the user experience

Your home lift is more than a way to move between floors – it's part of your living space. With carefully selected finishes, lighting, and personalised touches, it becomes a seamless extension of your home's style.

For KONE MonoSpace Home, choose from our Classic, Refined, or Elegant ranges – or mix and match to create a look that's uniquely yours.

Emergency Battery Drive

Prevent passengers from being trapped inside the elevator in case of a power outage, by installing an Emergency Battery Drive (EBD/ERD). With the EBD/ERD, there is no risk of entrapped passengers and no need to dispatch anyone to rescue passengers. The device will bring the elevator to the nearest floor and open the doors!

How it works

Once power is lost, the battery will immediately activate keeping the panels and lights on for the passengers. The elevator will then make one low speed trip to the nearest floor.

The doors will open normally to allow passengers to safely and calmly exit, and the elevator will shut down. Once the power is restored, and if there was no power surge damage, the lift will resume operation as normal.

The battery is a rechargeable, compact device which is integrated into the control panel and housed outside.

KONE Care™ DX

Combining expert technicians with remote monitoring and management technology that spots problems before they occur, our digital services extends KONE's renowned quality to a lifetime of, safe, smooth and efficient service in your home.

It minimises the disruption of unplanned outages, giving you peace of mind that we'll always be there when you need us. It's the care you expect from KONE.

1. Unparalleled delivery

- ✓ 24/7/365 customer support
- ✓ Skilled technicians are available to quickly solve any issues
- ✓ A large global support network offers access to expert knowledge
- ✓ We respect your privacy by only visiting, when necessary, assisted by technology and data

2. Predictive solutions

- ✓ Connected equipment monitors key parameters in real time
- ✓ AI-based analytics use data to evaluate equipment status and health

3. Data transparency

- ✓ Monthly equipment health report providing information that matters

4. Remote services

- ✓ Potential for immediate rescue of entrapped passengers, enhancing safety and peace of mind
- ✓ Connected equipment enables remote actions for faster resolution of issues
