People Flow™

Contents

Redefine the user experience

The interior of an elevator significantly contributes to the overall architectural ambiance of a building. Same way as any other space, an elevator elevates the experience of your building with user friendly finishing, good lighting, harmonious soundscape and even digital media content.
You can choose one of our predefined interior ranges or mix and match between ranges to create your own preferred combination.

A window of opportunity

KONE Scenic elevator solutions combine proven technology and inspiring car designs to create elevators that are attractive and spacious, and which give you the opportunity to showcase your building.

Scenic elevators include glass car walls and a glass hoistway, and are used in a wide variety of environments, from office buildings, hotels, and retail centres to transportation hubs and cruise ships.

For the latest product availability and estimated lead times, please contact your KONE sales representative. Additional lead time may apply for certain products.

KONE Digital Experience Cars

Sometimes the elevator ride is about more than the destination

Create a unique journey for people in your building by giving them a whole new world of multi-sensory experiences to enjoy. With dynamic sound, vivid colours, and immersive themes, the KONE Digital Experience Car can be tailored to capture your attention or soothe your senses.

Available through our Non-Standard Offering and additional lead time may be required

KONE

Three types of KONE Digital Experience cars
Aurora Car

A hybrid experience that is equally digital and physical, created through technology, driven by human needs.

Mirror Display Car

Invisible when not needed, always there when it is, 100% adaptable and future proof.

Digital Experience Car

Immersive, transformative, and unforgettable, a unique experience that reaches far beyond the ordinary.

Key features

OPTIMISED WAYFINDING WITH
- Destination guide display
- Audio guidance
- Traffic lights

ENHANCE THE USER EXPERIENCE WITH
- Digitally adjustable LEDs
- Floor projections

FLAG TAILGATING AND IDENTIFY OBJECTS WITH
- Time-of-flight (ToF) sensors

SMOOTH AND SECURE ACCESS USING
- QR codes
- Wireless RFID
- Readiness for biometric apps and Apple wallet

Add to Apple Wallet
Available through our Non-Standard Offering and additional lead time may be required

The images have been rendered by an artist. Details including shape and finish may differ from those pictured here.

KONE Destination

A destination control solution that combines distinctive design, dynamic access, and intuitive guidance. People with similar destinations are grouped together in the same elevator to reduce overcrowding. This significantly increases convenience, reduces travel times, and allows for physical distancing.

- Advanced destination guidance
- Optimised and enhanced people flow
- Adaptive and user-friendly design
- Built-in connectivity for integrations and digital solutions
- Optimised energy consumption enabled by ADCS/Energy Management feature
- Readiness for Apple Wallet

Add to Apple Wallet

KONE Destination – how it works

01

Select your destination on the destination operating panel or swipe your access card to make an elevator call to your home floor. Your allocated elevator is displayed.

02

If needed, check which elevator is yours from the digital destination guides on top of the elevators or from the elevator guide display.

03

Enjoy a ride in a non-crowded car and with fewer intermediate stops. The next-stop indicator on the media screen inside the elevator shows which floors it will stop at.
